Julieta Schwartz Cerveny

B.Sc.Physics and M.Sc. Big Data, Data Science & AI

Graduate in Physics and holder of a Master's degree in Big Data, Data Science & AI, with special interest in the application of data analysis to sports performance and football. I have analytical mindset, proficiency in programming tools (Python, SQL) and experience in applied analytics projects and data visualisation. I am passionate about transforming science and data into actionable insights that contribute to the development of sports.

Courses

2024

Intro to Machine Learning - Kaggle

2024

Intro to Deep Learning - Kaggle

2023

Mathematical Modelling of Football (Uppsala University)

Technical Skills

Programming: Python, SQL

Analysis and Modelling: Machine Learning, neural networks, statistical analysis

Visualisation and reporting: PowerBI, Plotly, Matplotlib

Soft skills: Teamwork, communication, problem solving

Languages

English C2

Spanish Native

Basque B1

Awards and recognitions

Awarded second prize in the Master's Thesis scholarship competition

Others

London Marathon 2026 Finisher

9 x half marathon finisher

Work Experience /Volunteering

2025
Rey Juan Carlos University | Madrid
Data Scientist

Currently working at Universidad Rey Juan Carlos in the Complex Systems group under the supervision of Professor Javier Buldú. I develop data visualisation platforms and actionable reports using Python to provide insights into player and team performance. Additionally, I collaborate with football clubs providing support as part of their data analytics team.

2024-2025
Prosegur | Madrid
Intern - Bussiness Intelligence

Intern in Bussiness Intelligence, where I analysed and processed large volumes of data to support strategic decision-making. Utilised R and Power BI for data processing, modelling and visualisation. Collaborated with international teams, enhancing my communication and cross-functional teamwork skills.

Junio 2023
UEFA | Rotterdam
Volunteering UEFA

Supported logistics and operations during a major international event, gaining insight into high-performance football environments.

Education

2025
Complutense University of Madrid | Madrid
M.Sc. Big Data, Data Science & Artificial Intelligence

Master's degree in Big Data, Data Science and Artificial Intelligence from the Faculty of Statistical Studies, with a Master's Thesis entitled "Conversational Agent for the Generation of Efficient and Cost-Effective Flight Routes".

2019 - 2024
University of Zaragoza | Zaragoza
B.Sc. Physics

Bachelor's degree in Physics, with a Bachelor's Thesis entitled "Deep Learning Techniques Applied to Sports Physics".

2022/23
University of Bath | Bath, UK
Erasmus at University of Bath

Academic year completed at the University of Bath, England.

2019
St. Patrick's English School | San Sebastián
Baccalaureate Title

Scientific Baccalaureate completed at St. Patrick's English School.

Projects

2025

Rey Juan Carlos University | Madrid

Club Performance Dashboard

For CF Fuenlabrada, Athletic Club Femenino and DUX Logroño. Developed comprehensive Streamlit platform in close collaboration with team managers, integrating statistical and event data to track team/rival progress across matches and seasons. Generated downloadable PDF reports for teams, players, and positional rankings, delivering tactical insights directly to coaches. Python, Streamlit, pandas, Plotly, Opta/Statsbomb data integration.

2025

Rey Juan Carlos University | Madrid

Discord Live Match Transmitions

Participated in the development of a Discord bot transmitting live FC Barcelona matches using Opta event data files. The bot delivers real-time match updates directly to Barça's official Discord channel, reaching thousands of fans. Featured in Mundo Deportivo as key innovation for fan engagement. Python, Discord API, Opta data processing.

2025

Rey Juan Carlos University | Madrid

Match Skeletal Tracking Analysis

Analyzing exclusive skeletal tracking data from LaLiga matches (limited-access dataset). Focus on advanced biomechanics beyond standard optical tracking.

Talks and Presentations at Events

Invited talk at Workshop Football Analytics organised by Universidad Rey Juan Carlos and La Liga. 21st of May 2026.
Invited talk at BF Sports Bootcamp organised by BF Sport, 29th of June 2026.

Technical Proficiencies

Data Sources: Opta, Statsbomb, Wyscout, Skillcorner, proprietary skeletal tracking (LaLiga matches)

Tools: Python, Streamlit, pandas, Plotly, Discord API, PowerBI, R, SQL, scikitlearn, tensorflow, keras, pytorch
